

## Removing Hub from an iOS Phone

---

To uninstall the Airwatch/Omnissa Hub App long Hold the icon on the Home Screen until the drop down appears and select **Remove App**

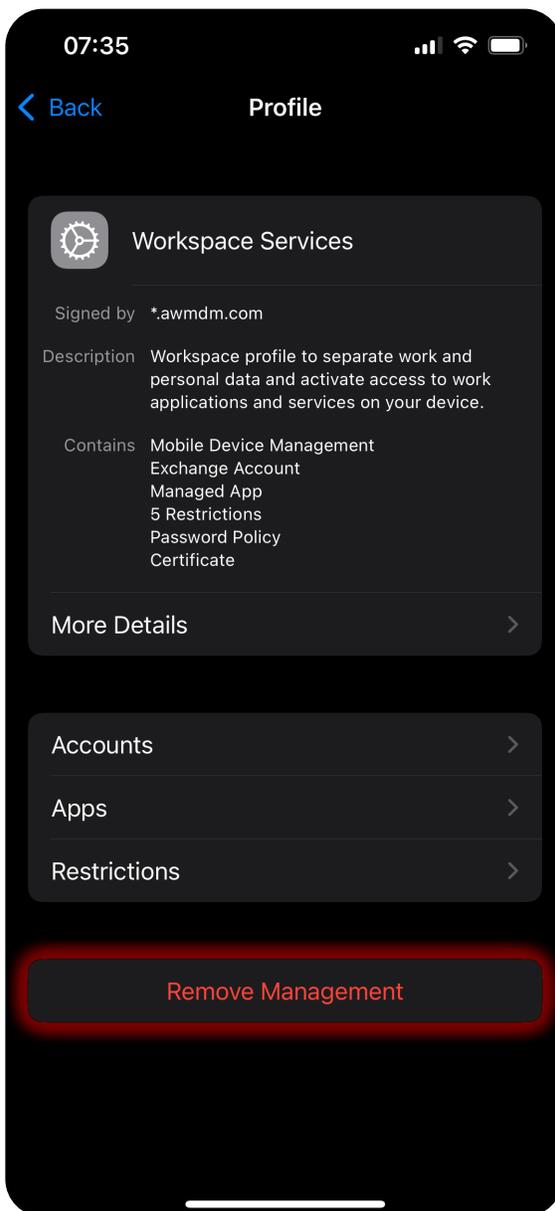

Confirm **Delete App** and Hub will be removed from the device

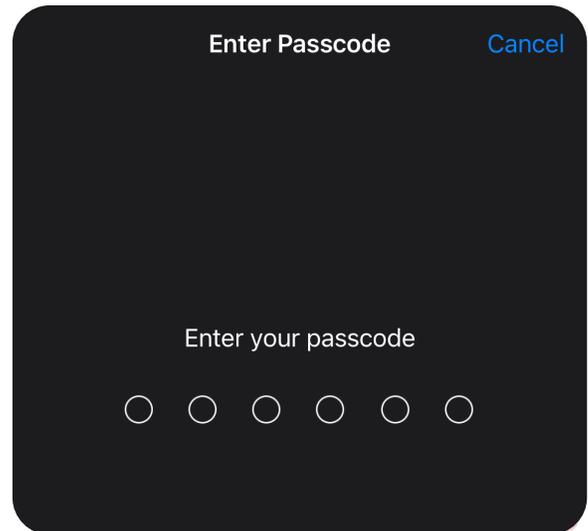

Next, open up  **Settings > General > VPN & Device Management > Workspace Services**

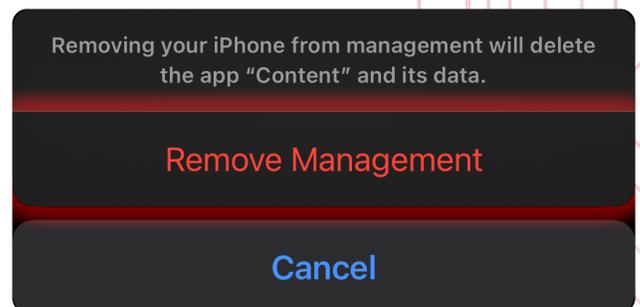

Select the Workspace Services Profile and choose **Remove Management**

This will prompt for the device Passcode

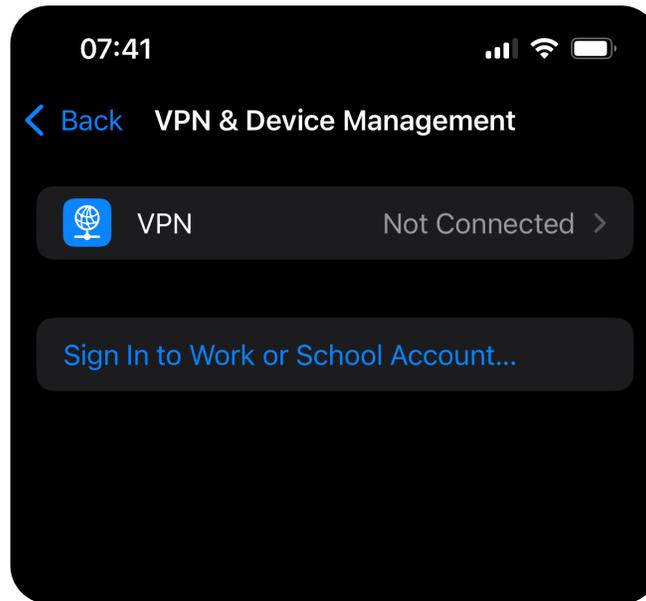

Confirm **Remove Management** to delete

The profile will be removed shortly

once the profile is removed, it will no longer be listed under the VPN & Device Management

### **Additional Notes**

- **Password Prompts:** If you experience repeated prompts for your password, ensure the Company Portal and Microsoft Authenticator are properly set up, and your device is compliant.
